TITLE OF AGENDA ITEM: SP 5-4-05/05-544/Eddie's Collision Experts/4375 Southwest 60th Avenue

REPORT IN BRIEF: The subject site is a .912 acres parcel of land located at the northwest corner of Southwest 60th Avenue and Southwest 43rd Street. The petitioner is proposing a new one-story warehouse building. The proposed building is approximately 9,300 sq. ft. in size. The subject site is zoned M-1, Light Industrial District, to the north is a junkyard zoned M-1, Light Industrial District, to the east are warehouses zoned M-1, Light Industrial and M-2, Medium Industrial District, to the south is a vacant lot zoned M-1, Light Industrial District, and to the west is Potters Park zoned RS, Recreation/Open Space District.

The proposed architectural design of the warehouse building has a Mediterranean feel. The architecture is simply designed with decorative features including score lines, stucco diamonds, standing seam metal roof canopies, and medallions. A cornice treatment is placed along the top of exterior parapet walls for aesthetic purposes. Additionally, rectangular bronze tinted glass doors and windows in white powder coated aluminum frames are located next to one another between 12' x 12' overhead doors.

Vehicular access onto the site is via two (2) openings along the eastern boundary line, parallel to Southwest 60th Avenue. These access openings permit traffic on and off-site. After vehicular traffic enters the site, they may maneuver thru two-way parking drive isle along the eastern portion of the subject site in a north/south direction.

The proposed warehouse building is compatible with the future and existing developments along Southwest 60th Avenue in terms of zoning, land use, and uses.

1. *Site:* The subject site is a .912 acres parcel of land located at the northwest corner of Southwest 60th Avenue and Southwest 43rd Street. The petitioner is proposing a new one-story warehouse building. The proposed building is approximately 9,300 sq. ft. in size. Significant Development Review Agency Comments

These following comments represent significant comments made by the Development Review Committee as part of the review process. All comments have been addressed unless otherwise indicated.

Planning and Zoning:

1. Remove or revise perspective elevation on the cover sheet to match proposed conditions.
2. If mechanical equipment is being proposed on the roof level, provide location with a hidden line ensuring it is screened from public view (i.e. Betty Booth Roberts Park)

Engineering:

1. Topographic survey must be sealed.
 2. Provide preliminary storm water management calculations. It appears that the retention area is inadequate for the proposed site.
-

Public Participation

The public participation process provides the ability for citizens of the Town of Davie to actively participate in the Town's development procedures. As per the Town of Davie Code, the petitioner conducted two (2) meetings with the public on Wednesday, July 20, 2005 and Monday, August 1, 2005 and 5:30 p.m. Attached is the petitioner's Citizen Participation Report.
